## PRESS CLIPPING SHEET

# 'AbbVie' one of the most convenient working environments in the Middle East and Egypt

**TOP** Employer Foundation has ranked 'AbbVie', the global pharmaceutical company, among the best working environments in the Middle East and Egypt. This comes for the thirteenth consecutive year, where it was filed under the parent company, 'Abbott'. 'AbbVie's' classification was within the 99 list of 2,300 companies, from 19 countries, nominated for the award.

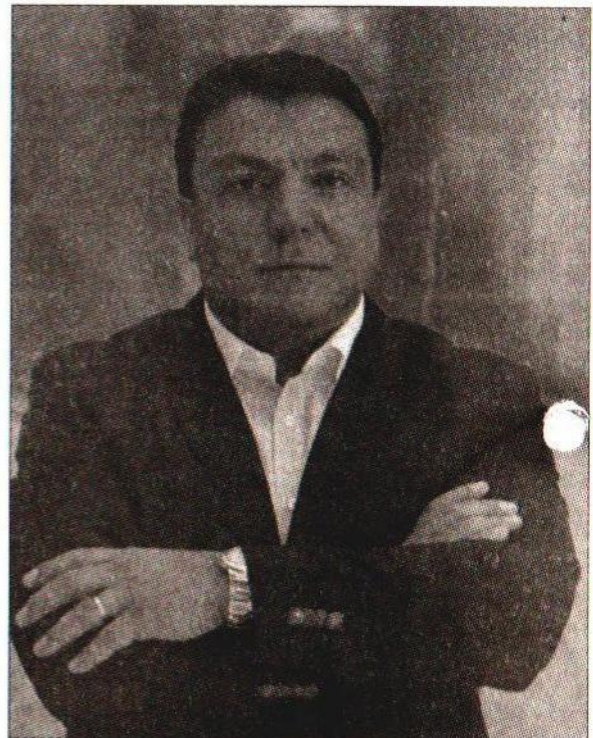

AbbVie Egypt Country Director, Dr. Amgad Laymoun, declared that, "This year AbbVie was the company with the largest number of representation from different countries and nationalities. This is a solid proof that AbbVie has a consistent approach in creating work environments in both local and global cultures.

The selection of AbbVie as one of the best working environments in Egypt and the Middle East was based on the assessment of its staff views, which is presented as part of the company's survey process. 'AbbVie' staff say that the company is the working environment, where we feel the ability to reach our maximum potential, and where new ideas are valued.

AbbVie Pharmaceuticals Regional Director Middle East, Africa and Pakistan, Mr. Abboud Bejjany added: "AbbVie is honoured to be selected as one of the best working environments in the Middle East.

This rating is a testament to AbbVie for its remarkable achievements in the past two years, since it was established, and after its separation from Abbott laboratories. This ranking also represents the staff recognition that AbbVie promotes innovation, transparency and teamwork."
